PETER PEPPER PRODUCTS
EXPRESSIVE ESSENTIALS®

Exilis Shelving combines an elegant, sleek and minimalist design that provides a place for objects both large and small. To maintain its graceful floating illusion, Exilis combines both strength and substantial weight bearing capacity using discreetly concealed brackets. Available as individually mounted shelves in various lengths.

Freestanding, Counter height or Full height displays with double sided shelving can be arranged with either Exilis Flat or Exilis Slope shelves. The cast aluminum base provides a stable platform for a variety of display presentations or space divisions.

Exilis Wall-Mounted System allows maximum flexibility with adjustable elevations and lengths. The Exilis Flat and Slope shelves are supported by vertical wall rails with infinite height adjustments.

Exilis is available in two extruded aluminum profiles; flat or sloping for displaying literature, art and presentation materials. Beautifully finished in natural anodized aluminum or white.

Design:
Patrik Lindberg + Hampus Östberg

Exilis - Where new ideas take shape.
